

EMIRATES ENVIRONMENTAL GROUP EEG EDU NEWS

Together for a Better Environment©

Habiba Al Mar'ashi
EEG Chairperson

Dear Readers, Eid Mubarak!

As we bid adieu to the holy month of Ramadhan, a month of purification and adopting good habits, I hope we come out of the holy month as an environmentally active society pioneering a sustainable lifestyle.

I hope that the last month of the Spring was fruitful and productive for all of you. The month of June is a month of great significance for the environmentally conscious individuals all over the globe. On June 5th, people around the world will celebrate the World Environment Day. This year, millions of people across the globe will rally under the theme of “Beat Air

Pollution”, a call to action for all of us to come together to combat one of the great environmental challenges of our time. Every year, EEG holds its Annual Awarding Ceremony to celebrate the occasion of World Environment Day and bring to light the champions of its waste management and recycling programme, whose commendable efforts have not just made our six recycling campaigns successful, but have made a substantial difference.

For EEG, the busy month of May began with an inspiring Awarding Ceremony, that unveiled and celebrated the winners of the Environmental Drawing Competition 2019 and exhibited the 41 winning entries with strong environmental messages, creating a bright and colourful scene. I am proud to share that this year witnessed the highest ever participation rate from schools, since the inception of the programme in 2004. A total of 2,148 entries were received from 566 regular and determined schools with a total participation of over 162,000 students including 106 student members of the EEG.

On the waste management front, it gives me great pleasure to inform you that EEG has successfully concluded Part 1 of its “One Root One Communi-tree” project. A total of 69 academic institutions and 135 student members and 48 companies registered for the successful cycle. The project will result in the planting of 511 native trees on the 19th of December (Read more on Page 4). EEG will also roll out two of its popular recycling campaigns in June, the “Neighbourhood Recycling Project” and project “Recycle. Reforest. Repeat”. The wonderful campaigns will provide all of our enthusiastic student, academic and corporate members with an opportunity to engage in active recycling during the summer and contribute to World Environment Day with the help and guidance of EEG.

It is our core duty to see the full picture and understand that to make a change we need to be a conscious society that is observant of what is happening around us in the UAE and the world as a whole. Hence, in this edition of the newsletter, you will learn about the latest developments such as the UNCCD celebrating its 25th anniversary and the official theme of this year’s World Environment Day. EEG is committed to support the government in its sustainability strategy, applying the most recent developments to its programmes and actively engaging its members and stakeholders in environmental awareness and recycling practices. The month of May was one of the busiest for EEG, from numerous presentations and meetings with environmentally responsible corporate entities, to webinars with global organisations. I truly wish that by reading this newsletter you get to see things happening through the eyes of EEG and become part of this environmental legacy. EEG anticipates that the month of June will be buzzing with action packed programmes and will witness the celebration of the Annual Awarding Ceremony 2019 and the launch of numerous significant campaigns. In the coming months, I hope you carry forward the virtues and values of Ramadhan by giving back to the nature and the environment. Let’s reach next Ramadhan as a changed society having adopted environmentally sustainable lifestyles.

EEG attends UK-UAE AI Research Forum

The UK Science and Innovation Network conducted the UK-UAE AI research Forum on the 2nd of May 2019, under the patronage of His Excellency the UAE Minister of State for Artificial Intelligence, hosted by Heriot Watt University Dubai, with support from the British Council. EEG was invited to attend the forum which provided an opportunity for scientists, industry and government officials from the UAE and UK to network, brainstorm, share knowledge and explore collaborations in research and innovation. A plethora of topics related to health, security, environment and ethics were discussed in great detail by a dynamic group of over 20 leading AI speakers and panelists who provided in-depth insights into AI trends within the UK and the UAE. The speakers, panel moderators and panelists represented 11 universities from the UK (Heriot Watt University; Ulster University, University of Birmingham, University of Cambridge, University of Cardiff, University of Edinburgh, University of Newcastle, University of Oxford, University of Southampton, University of South Wales, University of Warwick) and 9 organisations from the UAE (Abu Dhabi University, Dubai Future Foundation, EBTIC, Khalifa University, Microsoft Middle East, RIT Dubai, Smart Dubai, UAE Office for AI, UAE University).

The underlying message of the event was succinctly put by the keynote speaker - Dame Wendy Hall who provided an enlightening presentation about the AI revolution from a UK perspective, including key issues such as trust, ethics and diversity: "If AI isn't diverse, it isn't ethical", stressing the importance of more women, cultures religions and nationalities be part of the future of developing AI.

EEG visits Nestle AI-Maha Plant

EEG was invited to visit its corporate member Nestle Middle East's 18th factory in the region on the 9th of May. The factory is situated in Dubai South and the visit was part of Nestle's commitment to be more involved in sustainability and environmental initiatives locally. The EEG team were introduced to a variety of energy conservation, waste management, resource efficiency, sustainable consumption and renewable energy projects currently being done in the plant. EEG was happy to hear that the plant will be 85% run on solar power through the largest solar 7.6 MWp Ground-Mounted and Rooftop Solar Plant in the UAE, and that Nestle will aim to raise this target to 100% in the near future, by further reducing their energy consumption. EEG and Nestle will be organising a clean-up on the first week of June and will engage closely with EEG in the future for all the upcoming events.

EEG Chairperson attends the Ramadan Majlis for World Bee Day

On the occasion of the World Bee Day, EEG Chairperson Habiba Al Mar'ashi, attended an evening Ramadan Majlis last evening in celebration of World Bee Day organized by H.E. Eng. Sheikh Salem bin Sultan bin Saqr Al Qasimi, member of the Government of Ras Al-Khaimah Executive Council, Chairman of the Department of Civil Aviation in RAK and Honorary member of EEG at his Majlis in Ras Al Khaimah. The event was attended by many international and national dignitaries, diplomats, scientists and experts from the Food Control Authority.

The evening suhoor raised awareness on the importance of apiculture and its significance in ensuring food security in the region. Emirates Environmental Group is proud to work together with Al Najeh Honey to promote bee conservation in the region. 1/3rd of the world's food production depends on bees.

Bees are renowned for their role in providing high-quality food - honey, royal jelly and pollen - and other products such as beeswax, propolis & honey bee venom. Bees rely on their sense of smell to identify different flowers, making them effective pollinators. But air pollution can mask scent molecules from plants, which means bees need to forage longer & become less effective pollinators.

If you're interested in learning about bee breeding programme, becoming a bee keeper for a day, or learn more about apitherapy, then reach out to Hatta Honeybee Garden and Discovery Centre by visiting the website: www.hattahoney.ae or call +971(0)564996405

EEG Student Members completes Quick Race challenge!

EEG rolled out the Quick-Race challenge for our student members, wherein they were requested to collect and deposit 5 kg of Aluminium Cans for recycling between 8th of May and 22nd of May. Recycling of Aluminium Cans is essential for the protection of the environment and the conservation of resources. Recycling Aluminium Cans carries various environmental benefits in the long run. For example, recycling a can will save 95% of the energy used to make a complete new one from virgin ore.

This year 30 student members participated in the challenge and managed to collect 117 kg of Aluminium Cans for recycling. This has resulted in mitigation of 1.7 MT CO₂e, saved 26 Million BTU of energy and saved 2.8 m³ of landfill space. The participants were also automatically registered for the "Your Can For A Tree" project and their contributions will be counted towards being a step closer to getting to plant an indigenous sapling under their name on 19.12.19.

Environmental Drawing Competition Awarding Ceremony 2019

EEG organised a special and stand-alone awarding ceremony to unveil and celebrate the winners of its 2019 Environmental Drawing Competition on the 19.05.19 in the Ismaili Centre, Dubai. The Awarding Ceremony commended the talented young artists and exhibited the 41 winning entries with strong environmental messages, creating a bright and colourful scene. The winning students received gifts, courtesy Al Hathboor and Mcdonalds UAE. Each of the marvellous drawings held a unique perception of current environmental challenges and demonstrated hope, which the youth hold for a sustainable future.

This year the competition included three wide-ranging and powerful themes, which were orchestrated in line with the most current environmental issues and developments. “One World, One Family” was developed in strong correlation with the UAE’s Year of Tolerance national mandate, encouraging the students, between the age of 12 and 16 years, to understand the importance of a tolerant society and culture.

As an accredited member of UNCCD, EEG works closely on the issue of combatting desertification and hence the topic of “Green UAE”, for students between 9 and 11 years was rolled out which encouraged them to visualise and paint a picture for a greener and cleaner UAE that they would like to live in.

The youngest participants of the competition, between the age of 6 and 8 years, presented entries under the topic of “Kindness to Animals”, as an NGO accredited to the International Union for the Conservation of Nature (IUCN), this topic was chosen to raise awareness on the importance of protecting the species in the animal kingdom which are currently facing huge pressures on their existence due to anthropogenic activities.

LIST OF WINNERS

Category	Position	Schools	Determined Schools
Kindness to Animals	Winner	Shara Rajamohamed Leaders Private School	Hamda Sultan Madinat Zayed Center for Care and Rehabilitation
	1 st Runner Up	Ryaan George Naveen Abu Dhabi Indian School, Boys	Mohamed Abdel Fattah Al Wafa School for Capacity Development
	2 nd Runner Up	Naisha Bhatia GEMS Modern Academy	Shekha Bassam Abu Dhabi Autism center
Green UAE	Winner	Rawhan Zoharin Leaders Private School	Mohamed Rashed Al Qoa Center for Care and Rehabilitation
	1 st Runner Up	Hoorah Khan Al Sadiq Islamic English School	Khalfan Obaid Abu Dhabi Autism center
	2 nd Runner Up	Pavani Sai Krishna GEMS Modern Academy	Saif Abdullah Sharjah City for Humanitarian Services - Khourfakan Branch
One World, One Family	Winner (Tie)	Jaweria Imtiaz Gulf Asian English School	Saeed Soliman Al Qoa Center for Care and Rehabilitation
		Arjun Reji Kumar Sunrise English Private School	Asmaa Saeed Al Za'abi Sharjah City for Humanitarian Services, Kalba Branch
	1 st Runner Up	Aiman Kashif The City School International	Aya Saeed Al Hagry Abu Dhabi Center for Care and Rehabilitation
	2 nd Runner Up	Maita Abdalla New World American Private School	Manea Adel Al Wahdy Abu Dhabi Center for Care and Rehabilitation

EEG Successfully Concludes Phase 1 of One Root One Communi-tree Project!

The 19.05.19 marked the conclusion of Phase 1 of EEG’s popular “One Root One Communi-tree” project, which aimed at driving awareness and action around the urgent need to recycle. For its first phase, the project welcomed on board academic institutions and families, who deposited six recyclable materials for a chance to plant a tree sampling in their name, during EEG’s “For Our Emirates We Plant” event in December.

A total of 69 academic institutions and 135 student members and 48 companies registered for the successful cycle, depositing 345,182 kg of paper, 21,277 kg of plastic, 1238 kg of Aluminium Cans, 184 mobile phones, 18,764 kg of glass and 970 toners. The project will result in the planting of 511 native trees on the 19th of December.

The second phase of the project will commence on the 19th of September for EEG’s devoted corporate and individual members. We congratulate all those who met the targets and the following are the top achievers for the programme!

Company Name	Trees Earned
UAE Exchange	51
Two Season Hotel & Tristar Group	30
Abela & Co.	25
Top Schools	Trees Earned
Our Own High School, Al Warqa'a, Dubai	7
SHARJAH INDIAN SCHOOL JUWAIZA	4
Delhi Private School Dubai Delhi Private School LLC, Sharjah Dubai Men's College GEMS United Indian School, AUH	3 (Each)
Top Individuals	Trees Earned
Kush Bhautik Vaidya	7
Kriti Kamath Lacksana Karthikeyan Nehan Naseem Ali Nia Tony	6 (Each)
Kavyashree Elanchezhian Satvik V	5 (Each)

Your Can for A Tree

On the 1st of April 2019, EEG launched its popular Your Can for A Tree project for all sectors of the society to utilise the platform and submit Aluminium Cans for recycling in return for an opportunity to plant a sapling of an indigenous tree under their name.

The project will run until the 30th of June, with the minimum targets to receive a tree set at 50 kg for individuals, 200 kg for academic institutions and 225 kg for corporate entities.

EEG urges the community to realise the benefits of recycling and work towards achieving the overall objective of zero waste in landfills and encourages all of its readers to register for the significant project. Click here to sign up now: <https://forms.gle/2jsYUmgI7GNZ3jzF9>

EEG to host its Annual Awarding Ceremony on World Environment Day

The Emirates Environmental Group will celebrate the successes of EEG’s waste management and recycling champions for the year 2018. The unique nation-wide event will be graciously hosted at the Dubai Knowledge Park on the 10th of June, commemorating the World Environment Day.

The Ceremony will award the corporate entities, academic institutions and families, which were the top collectors in 6 categories, including Aluminium Cans, plastic, paper, glass, toners and mobile phones. As part of the highly anticipated event, EEG’s Academic Members will further be given a platform to exhibit art, created from waste.

The Awarding Ceremony is very crucial for the success of EEG’s waste management programmes and goes a long way in driving performance among the participants of its impactful campaigns. Commemorating the 2019 Theme of World Environment Day, “Beat Air Pollution”, EEG’s recycling campaigns transform attitudes and change practices to reverse the trend of over-consumption and wastefulness. Stay tuned for our upcoming newsletter to learn more about the biggest Waste Management Awarding Ceremony in the country!

EEG Launches Neighbourhood Recycling Project (#NRP19)

EEG rolled out “The Neighbourhood Recycling Project” on the 1st of June, as a platform to engage its active student members in recycling practices during the summer months.

The duration of this campaign is from the 1st of June 2019 until 30th September 2019, wherein the enthusiastic student members of EEG are required to create flyers and distribute them among their neighbours to encourage a two-week collection of recyclable materials under the project.

Once the minimum targets are achieved, the students are eligible to plant a tree under their name with EEG on the 19th of December 2019. Do not miss this great opportunity and register via the link: <https://forms.gle/8uuUU4uCseitVVP68>

Recycle. Reforest. Repeat. 2019

As part of EEG’s yearly tradition to support UNCCD in its cause for healthy lands, and on the occasion of the World Day to Combat Desertification (#WDCD19) EEG has rolled out its popular project “Recycle. Reforest. Repeat 2019” from the 19th of June and it will continue till 19th of July in an effort to engage the local community in meaningful action towards combatting desertification.

Due to the popular requests and high visibility of the programme, EEG answered the call to open the significant programme to non-member entities to participate and deposit their paper in return for a certificate of participation and a tree to be planted under their name during EEG’s Annual Tree Planting Ceremony on the 19th of December 2019.

Do not miss this great opportunity and register via the link: <https://forms.gle/uub2LFeqxaMtUJH59>

EEG hosts third Panel Discussion! “Climate Change – Time for Action”

EEG is organising its 3rd Panel Discussion of the year in Dubai on the 19th of June under the topic of Climate Change: Time for Action.

The panel discussion will aim to foster an open conversation about the importance of the efforts we need to undertake in order to combat the effects of climate change. The panel discussion will focus on the United Nations Sustainable Development Goal No: 13, Climate Action, which states that urgent climate action is required to combat climate change and strengthen resilience and adaptive capacity to climate induced impacts.

The solutions required to tackle global warming are well known and available, what is missing in the drive to implement climate action. There is an impressive group of speakers representing international and national bodies within the UAE, register now and do not miss this wonderful and unique opportunity.

Click here to register: <https://forms.gle/nLCDGxGkjBcuBhdi619th> of December 2019. Do not miss this great opportunity and register via the link: <https://forms.gle/uub2LFeqxaMtUJH59>

EEG engages with IUCN

EEG was also invited by IUCN in April to participate in the consultation process for the formulation of the Draft Programme 2021-2024. As per the 5-month consultation and review process, partners have been asked to shape the document, which is a result of comprehensive discussions that have taken place over the last few months with the IUCN Council, the IUCN Membership and IUCN Commissions representatives. The Draft Programme 2021-2024 will be presented in detail at the Regional Conservation Forum, which every member/partner is encouraged to attend.

IUCN Organises its 96th Council Meeting

- The IUCN conducted its 96th meeting of the Council at Gland, Switzerland. From the 28th -31st of March, EEG received an update on the important decisions undertaken at this prestigious event and would like to share the same with its readers.
- The following were established as per the endorsement of the Council:
 1. Motions Working Group
 2. Succession Planning Committee
 3. An elected Indigenous Councillor position
- Other significant decisions included:
 1. Approval of the Director General's objectives for 2019;
 2. Welcoming the Report of the External Review of IUCN's Governance;
 3. Endorsing the transition towards a new IUCN Director General, Grethel Aguilar;
 4. Welcoming the IUCN Draft Programme 2021-2024;
- At the meeting, the IUCN also approved the improvements made to its governance structure as well as harmonising the nominations process across all IUCN Commissions.
- In terms of membership, the IUCN approved the admission of 21 organisations as well as deferred that of 3 institutions.

IUCN NEWS

UN Report: One Million Species at Risk of Extinction

On Monday the 6th of May, the Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES) presented its report put together by more than 400 experts from more than 50 countries in front of more than 130 Government delegates at the UNESCO headquarters. The report highlighted that human activities are putting more pressure on flora and fauna than ever before and states that the world is put on 'notice'. 25% of all plants and animals are now considered 'vulnerable' and marine pollution has increased ten-fold since 1980 affecting at least 267 species, including 86 % of marine turtles, 44 % of seabirds and 43 % of marine mammals. "The loss of species, ecosystems and genetic diversity is already a global and generational threat to human well-being," insisted Sir Robert Watson, IPBES Chair. "Protecting the invaluable contributions of nature to people will be the defining challenge of decades to come. Policies, efforts and actions - at every level - will only succeed, however, when based on the best knowledge and evidence."

Committee of Permanent Representatives Subcommittee Meeting

On the 7th of May 2019, UN Environment organised the Committee of Permanent Representatives Subcommittee Meeting with the aim to conduct an initial assessment of the fourth session of the UN Environment Assembly. The meeting was chaired by H.E. Mrs. Elizabeth Taylor-Jay, Vice-Chair of the Committee of Permanent Representatives, Ambassador and Permanent Representative of Colombia. Aspects of the UN Environment Assembly discussed included:

- Results of the post-Assembly survey completed by attendees and participants;
- Political outcomes, participation statistics (including on gender) the overall perception of the Assembly, as well as follow-up action;
- The Secretariat was commended for their hard-work and support during the Assembly;
- Member States urged the outcomes of the Assembly to be regarded as an investment as well as a knowledge-sharing platform;
- An important lesson learnt was a focus on quality rather than quantity, especially with regards to the number of draft resolutions that were discussed at the Assembly;

Other items discussed at the Subcommittee Meeting were:

- A contribution to the 2019 High-Level Political Forum on Sustainable Development (which will be held in New York in July 2019);
- A briefing on the UN Decade on Ecosystem Restoration (2021-2030)
- A briefing on the preparations for World Environment Day 2019

EEG looks forward to a productive year ahead and congratulates UN Environment on all its endeavours - past and present.

UNEP organises the third substantive session of its ad hoc open-ended working group

From the 20th - 22nd of May 2019, the United Nations Environment Programme organised the third substantive session of the ad hoc open-ended working group.

By General Assembly resolution 72/277, the Assembly requested the Secretary-General to submit to the General Assembly at its 73rd session in 2018, a technical and evidence-based report that identifies and assesses possible gaps in international environmental law and environment-related instruments with a view to strengthening their implementation (Gap Report). The Gap Report can be accessed here: <https://www.unenvironment.org/events/conference/towardsglobal-pact-environment>.

The General Assembly also decided to establish an ad hoc open-ended working group under its auspices to consider the Secretary-General's report and to discuss possible options to address gaps in international environmental law and environment-related instruments. The 1st and 2nd substantive sessions were held in Nairobi January and March 2019, respectively.

During the 2nd substantive session, the Co-Chairs invited participants to send their concrete proposals on options to address possible gaps of international environmental law and environment-related instruments.

The main focus areas of this session included:

1. Adoption of the agenda and Programme of Work;
2. Statement on the financing of the activities of the ad hoc open-ended working group;
3. Consideration of the draft recommendations;
4. Consideration of the draft report of the working group

World Environment Day Mask Challenge

Nine out of ten people breathe polluted air. From 24th of May, through to #WorldEnvironmentDay on 5th of June, UNEP is calling on everyone to join the Mask Challenge. Face masks are a great symbol to show leaders we want to breathe clean air. Alongside celebrities, influencers and creators, the World Environment Day campaign invites everyone to:

1- Decide what action you are going to take to #BeatAirPollution

Here are some examples:

- Use public transport or car sharing, cycle or walk
- Switch to a hybrid or electric vehicle and request electric taxis
- Turn off the car engine when stationary
- Reduce your consumption of meat and dairy to help cut methane emissions
- Compost organic food items and recycle non-organic trash
- Switch to high-efficiency home heating systems and equipment
- Save energy: turn off lights and electronics when not in use
- Choose non-toxic paints and furnishings to #WorldEnvironmentDay

2- Make a pledge and challenge others to take action

May 24th – June 4th

- Take a photo or video of yourself wearing a mask to post on social media. Don't have a mask?
- Get creative and make your own!
- In your post share the action you'll take to reduce air pollution
- Tag 3 people/companies and EEG to challenge them to do the same.
- Use #EEG #WorldEnvironmentDay and #BeatAirPollution in your social media posts and don't forget to tag @EEGDUBAI and @UNEnvironment.

The collection of materials for recycling in the month of May resulted in the following benefits:

- » **GHG Reductions 352 (MTCO₂)**
- » **Saving of 2,394 Million BTU of Energy**
- » **Saving of 548 m³ of Landfill Space**
- » **Saving of 1,766 trees from being felled**
- » **Saving of 1,404 Gallons of Gasoline**

PAPER COLLECTION CAMPAIGN	Schools	Quantity (kg)	Families	Quantity (kg)
"EEG has collected 86,411 kg of Paper from 323 participants during the month of May 2019, an increase of 7% compared to May 2018. We encourage our participants to be actively involved in our Campaigns in the year 2019 so as to enable us to work towards our 2019 target. The Top Collectors were:"	Delhi Private School Sharjah	4,566	Madiha Javed	1,460
	Private International English Speaking School Abu Dhabi	4,485	Nia Tony	850
	Petroleum Institute	4,270	Lacksana Karthikeyan	800
CAN COLLECTION CAMPAIGN	Schools	Quantity (kg)	Families	Quantity (kg)
EEG has collected 417 kg of Aluminum Cans from 41 participants during the month of May 2019, a decrease of 61% compared to May 2018. The top collectors for the month were:	British School Al Khubairat	12	Madhiha Javed	10
	-	-	-	-
PLASTIC COLLECTION CAMPAIGN	Schools	Quantity (kg)	Families	Quantity (kg)
EEG has collected 6,008 kg of Plastic from 133 participants during the month of May 2019 a increase of 14% compared to May 2018. We encourage our participants to reduce the amount of plastic ending in landfills by collecting more in the year 2019. The top collectors for the month were:	Dubai Mens College	350	Joseph Manoj Chittilappilly	66
	Our Own High School - Al Warqaa (Boys)	330	Ahmad Moosa AlHashimi	45
	Dubai National School	275	Ananya Sharma	40
TONER COLLECTION CAMPAIGN	Schools	Quantity (kg)	Families	Quantity (kg)
EEG has collected 415 pcs of Toners from 11 participants during the month of May 2019, an increase of 31% compared to May 2018. We encourage our participants to be active in the year 2019. The Top collectors were:	Delhi Private School Sharjah	24	-	-
	Emirates Future International Academy	19	-	-
MOBILE COLLECTION CAMPAIGN	Schools	Quantity (kg)	Families	Quantity (kg)
EEG has collected 362 pcs of Mobile Phones from 7 participants during the month of May 2019, a decrease of 11% compared to May 2018. We thank our participants and encourage them to collect more for the year 2019. The Top collectors were:	Our Own High School - Al Warqaa (Boys)	150	Shivani Adduri & Sivadurga Adduri (Tie)	30
	Delhi Private School Sharjah	113	-	-
	-	-	-	-
GLASS COLLECTION CAMPAIGN	Schools	Quantity (Kg)	Families	Quantity (Kg)
EEG has collected 4,045 kg of Glass Bottles from 43 participants during the month of May 2019, a increase of 191% compared to May 2018. We encourage our participants to collect more in the year 2019. The Top collectors were:	British School Al Khubairat	180	Nirja Kumar	130
	The Arbor School	80	Twarita Varma	124
	-	-	-	-

EEG encourages all its students & schools to intensify efforts for the year 2019 to contribute significantly to the betterment of our environment and achieve the set targets for the above campaigns.
